**Safe, secure
wrapping.
Streamlined
operations.**

The entire pallet wrapping operation can be safely performed by a single operator in less than one minute. No banding, no strapping, no boxes, crates or corrugated containers are needed anymore.

Forklift-Friendly Pallet Wrapping in Seconds

Breakthrough TAB Wrapper Tornado technology wraps even long, bulky, and oddly shaped products directly to the pallet. Its 360° wrapping zone ensures a tight, secure, and unitized wrap every time, holding your product safely in place during transport and storage. Best of all? The entire process can be completed by one worker from the seat of the forklift.

Benefits:

- Save big on labor and material costs
- Eliminate rejected orders and freight damage claims
- Improve team safety
- Streamline operations
- Implement quickly with intuitive controls

in Action**

How it Works:

1. Center the pallet within the wrapping ring

2. Attach the end of the stretch wrap roll to the pallet

3. Grab the corded remote to begin the wrapping process

4. Slowly reverse as the pallet is being wrapped

5. Press stop when the pallet is wrapped to your liking

TAB Wrapper Tornado Standard

- 3 standard models – 80", 100", and 115"
- Made in the USA and Ships Fully Assembled
- Ideal for wrapping many product shapes and sizes
- Highly customizable with automation add-ons

Smart Controls System

- Increased automation over our standard push to start control package
- A wireless remote to start and stop your machine
- Automated cut and wrap device for hands-free attaching and cutting of stretch wrap

Optional upgrades:

- Thermal knife that cuts through stretch wrap
- Safety scanners
- Powered conveyors
- Increased diagnostic reporting

Genius Controls System

- The most automation offered in a stand-alone wrapper used in conjunction with a forklift allows for hands-free operation
- Precise ultrasonic detection initiates and completes each wrap cycle automatically
- Intuitive touchscreen with user-friendly interface and real-time diagnostics
- Integrated light towers provide clear visual and audible operational cues to operators

TAB Wrapper Tornado Perfect Storm

- Conveyorized system ideal for high-volume operations
- Automatically senses pallet
- Fully customizable based on your product, target throughput, and other factors
- Colorful touch-screen with an easy-to-use menu and programmable wrapping recipes

TAB Wrapper Tornado Box Wrapper

- Perfect for e-commerce products, loose components, and items placed on thick cardboard or wooden slip sheets
- Touchscreen controls with side slider belt guides and sensors for automated operation
- Creates shipping-ready units ideal for UPS, FedEx, USPS with secure 360° coverage around and under the product

TAB Wrapper Tornado Lightning

- Compact orbital stretch wrapper ideal for unpalletized items and bundles, like tubes, pipes, and wood
- Saves floor space while delivering the performance and reliability of full-size TAB Wrapper models
- Easy operation with simple foot pedal control and consistent 360° wrap coverage
- Available in 24" and 36" ring sizes with optional conveyor compatibility

Dual Dispensing System

- Includes Smart Controls
- Dispenses 2 stretch wrap rolls instead of 1
- Automated cut and wrap devices on each side
- Cuts wrapping time down to as little as 30 seconds
- Available with 80" - 100" - 115" models

Ask Us About Stretch Wrap for Your TAB Wrapper

- Thinner wraps with same strength as heavier gauges
- Quiet unwind
- One-sided cling
- Puncture and tear resistant
- Multiple color options available
